“Confusion and Clarity”

Delivered at the TOSA Self-Ascension Center

Antigua, Guatemala, Central America

Through Wisdom Teacher Sri Ram Kaa & Angelic Oracle Kira Raa

March 2013

The Divine Beings of Crystalline Light speak:

Hello beloved Angels of great light, love, joy, and presence. We say hello to thee. We say welcome to thee. We say Namaste to thee.

For indeed this is the moment of our divine recognition of thee as thee awakens again. Many have connected with the awakened presence that is now pervading upon all of your world.

All of your world. All inhabitants. All beings. All of your world.

Unifying Allness and Oneness

The world that you have chosen to experience form in now is at the full expansive moment. We wish to offer this to you, it is the allness and the oneness speaking together. You may say, “How can allness and oneness be together?”

We offer to thee, the allness and the oneness are speaking together now. And as they speak together now, all is illuminating, all is expressing, and all is culminating.

***Oneness is a reunification energy.
It is a reunification presence.***

It is a reunification, we use the word, knowing, for you see, beloved Angels, those who stay deeply aligned with allness, will soon continue their journey, and let us say, in another form, in another way, on another earth.

And of those that are ready to step into the oneness, the embrace of the divine expanded energy, will continue in another way, another experience. Let us simply say, another earth.

Confusion and Clarity

You may say this sounds so confusing. We offer to you this gift of understanding.

Whenever confusion arises, confusion is of the allness.

Clarity is of the oneness.

Confusion is of the allness.

Clarity is of the oneness.

Confusion or clarity are the energies of the time. And they are a choice.

And you will find that as the confusion arises, so does the clarity.

And as does the clarity arise, so does the confusion.

There is a great, we use the word jumble, of mass information that is designed to allow the confusion grow. Media, technology, information, availability, curiosity, jealousy, greed.

These are all energies that are feeding the stream of allness.

And there are many more for indeed allness also contains love,

and joy, and peace, yet it is the fragments of all energies

that contain the allness. The fragment of all energies that contain the allness.

This is an important line. This is an important moment. This is an important sharing.

For only you can make the choice. Confusion are clarity. Clarity or confusion.

For both energies are rich. Both energies are large. And both energies are present now.

Yet they form the two sides of the lotus, do they not? Confusion and clarity. Yet in the center is the birth of you in your crystalline ascended beingness with love above you, with wisdom below you. With the two energies of the expanded heart on either side, you are able to lift through the lotus which blooms through the muck. The lotus blooms in the muck. It comes out and grows through it.

To deny your experience of the allness and all of the aspects, is to stop the growth of the lotus.

The Discernment Seed

To ignite the lotus, is to come through all that is before thee, so that the confusion may relax and the clarity may unfold. The confusion may relax the clarity may unfold. In confusion and clarity there is the discernment seed. The discernment seed is ever present in thee. And the discernment seed has always been with thee.

In this moment of the illumination of the Earths, of the Earths, there is Confusion and clarity. There is a universal oneness that breathes balance. In this universal oneness that breathes balance, you will be challenged much to find this only if your choice is not clear. Your choice can be clear, or your choice can be confused. When the choice is clear, everything appears.

Beloved Angels of great light and wisdom, of great presence, of extraordinary heart, you are, and we choose this word wisely, engorged, with crystalline energy if you choose to allow it to fill you.

***Feel the energy to be so full with crystalline light that you feel lifted, lifted, lifted.
You feel as if the floating embers of all divine energy are with thee.
The eternal presence of your divine light and love has illuminated well beyond this world.***

In the ancient mysteries, are the now revelations.
And in the now revelations, are all of the ancient mysteries.

***To be preoccupied with the past takes you away from the clarity of the now
and adds to the confusion of the totality.***

Allness and Cosmic Connection

For within the allness...ALL has manifest now. And allness has great power now. Allness has great momentum now.

Allness includes benevolent and non-benevolent cosmic interventions that are active, present, and let us say, offering much during this moment of your time line capsule in form.

The beings of cosmic worlds of density that are simply offering greater technological expansion are here in the allness with you.

The beings of benevolent cosmic presence are more multidimensional, and while present and available in this expansionary experience now, they are bound by the divine integrity of a universal love to not interfere, and they are present.

***To be rescued is to be interfered with.
Do you understand this beloved Angels?***

***To be rescued is interference, for it does not allow your expansion to be.
It is very popular in allness to believe in, to desire for, and to crave rescuing.***

For in the allness, and especially in the confusion energy, is the deep despair of the human experience. It is always found there, and it creates dogmas.

It creates formalized structures that seek to control your mind.

It creates a fear paradigm.

And it creates the opportunity to receive your power because you must give your power willingly.

***None can take your power.
Beloved ones, there are none that can take your power.***

Only thee can willingly offer thy power to those who are able to manipulate through the streams of universal energy into the divine framework of your own, let us say, psyche.

None can take your power.

If you have ever felt your power has been stripped of you, if you have ever felt the fear, if you have ever felt abused, you have given that power away. Even when the innocent form of the human overlay is unaware that it is done so.

Have mercy. Have mercy on thyself, and have mercy on those who would seek to claim thy power, for it is food for those who seek to claim it.

***It is time to stop feeding any other than your own divine connection.
Your clarity comes when you focus.
When you allow your vision to be very focused.***

When you stop ignoring from all the other worlds the confusion energy is great, and it will find the words and it will find the delivery methods and it will find the energies that will appeal to the open holes of your own psyche if you allow it to be.

To stay focused and within, love above wisdom below, the balance arises.

***I am here. I am ready. I am open. Guide me.
I am here. I am ready. I am open. Guide me.
I am here. I am ready. I am open. Guide me.***

Creates the cross of the infinite divine connection, and in the cross of the infinite divine connection, there is love, there is wisdom, there is the balance, and the seat of discernment births from the center, and you are clear.

***It does not matter what the seeds of confusion of allness seek to show,
for the union of clarity is abundant, filled with wisdom, and yours to claim now.***

Yes the allness is here.

So is the oneness.

***The moment has arisen and it is great.
Make thy choice and remain stable in thy heart.***

The outside world is irrelevant unless you give it power to be relevant. You work within it, not as it. You live through it, not on it. You expand infinitely through this journey, or you collapse infinitely into the depth of confusion.

The choice is yours and you are loved beyond the measure of the capability of a mind, so let go of the mind, and feel our love for thee.

Feel us reach out to thee.

Feel that love come into you now.

Allow yourself to release all sense of judgment, doubt, pain, grief, anger.

Allow it to be relaxed, released.

And allow thyself to be rejuvenated and renewed.

See now the crystalline shimmers of the divine universe began to appear before thy eyes.

Hear the harmonies of the divine healing mantras come forward to thee now.

Feel the sacred geometric alignments that are yours to ignite and surround thee with a portal of divine recognition, cognition, and yes beloved ones, crystalline ascension.

From the center of the divine universe, we are here, the divine beings of crystalline light, together with all of those you call the archangelic realm. Feel us around thee. Feel the cross.

I am here. I am ready. I am open. Guide me.

And feel the seed of discernment birth, knowing that your actions are guided.

Trust thy heart!

Trust thyself!

And so it is.
