

The Twelve Lessons of Oneness

Message Eleven

Commanding your Divine Infinite Mastery Presence

The Archangel Zadkiel shares through Master Lady Kira Raa:

There are those who have been incarnated many, many, many... many times. Indeed! BE-loved Ones! As YOU move forward...NOW... in this world, the time of Divine command of your Infinite Mastery Presence is most imperative... is it not?

Yes! IT IS. As YOU command your Divine Infinite Mastery Presence, YOU ARE releasing the habit of victim, or savior, mentality. For some, this can be alarming to hear. And IT IS... de-light-full to listen to.

The Gift of Your Divine Infinite Mastery Presence

BE-loved¹! The Divine incarnation that YOU ARE...experiencing now, has these great and glorious forms of physical bodies. The gift of your Divine Infinite Mastery presence is that contained within the energy of your every breath, is the presence of your Divine Infinite Mastery².

This Divine Infinite Mastery is a great and extra-ordinary gift that arises through the release of doubt and the anchoring of a heart that says without saying a word: "I understand. I AM. I all-ways will BE. I understand. I AM. I all-ways will BE. I understand. I AM. I all-ways will BE."

¹ The original salutation here was Beloved Children. This unlocked discourse carries the clear message that IT IS...connecting with the Divine Infinite Mastery Presence which is empowered and ready. We have arrived!

² The original wording as shared by Archangel Zadkiel referred to this as the word soul "as we would call it". IT IS...the moment to simply KNOW the Divine Infinite Mastery without need to define or quantify.

BE-loved Ones! In the energy of this Divine universe that has illuminated this

Gaia experience, your feet get to walk, your eyes get to see, your hands get to touch, your skin breathes as your lungs breathe, your cells, your blood, your skin, your hair, ALL of YOU is a Divine component of the essence of the ever-pulsating, ever-swirling Divine Infinite Mastery presence.

Let us first share about The Divine Pulsation.

Seeking Harmonic Balance

In your world, the Divine pulsation energy is attuned to vibrational frequency. This is the heartbeat of the universe, the heartbeat of the planet, the Divine “hum” that each Divine Infinite Master BEing carries within their own pulsing heartbeat.

For some IT IS... steady, is it not? The steady beat that goes day after day after day. For some IT IS... a bumping beat. Thumping, heavy and loud. And! For some IT IS... very rhythmical, soft and quiet. Together they ALL form a Divine chorus; do they not?

When ALL these Divine pulsations arise from the anchored heart center, YOU hear the harmony of the Universe. YOU experience that harmony as YOU interact with ALL of these Divine pulsations. Each a full expression in your world... now.

In your world... now, there is a great seeking energy. This is part of the rhythm of the harmonic balance coming forward in many different ways. This balance has been energetically adjusting to the frequency of resonant BEing for many, many, many ages. ALL ages move energy around your planet in a pulsating manner. This energy takes on many forms and ALL forms.

As YOU navigate your earth changes...be they earthquakes, tornados, or other experiences, they are part of the pulsation that affects the earth change. And... remember that a group of BEings in Oneness singing together, creates an earth change too; does it not?

ALL earth changes add to a collective harmonic energy, or the serpent of your world you call kundalini -- so many names have been given to this – KNOW that this energy has moved and shifted around your planet. This is a Divine, beautiful gift to witness energy move and shift. Many are acting like the little ones saying, *"I will catch the lion, even though I am only two years old."* Running around finding that lion life after life after life while always searching: *Is the energy here? I will live here. Is the energy there? I will live there. Is the energy here? I will live here.*

Seeking a Savior

BEloved Ones. IT IS... in the pulsation energy of the connection with density, in the veil of non-remembrance, a savior mentality was co-created. Within that veil, the gift... indeed the resurrection... is remembering none can save you from your-self.

YOU...ARE. YOU...ARE.

To seek to be saved declares you choose not to command the truth of YOUR Universal Infinite Mastery Presence.

Through the seeking of saving, you are open to projection. You will notice you are in a seeking mode when you feel the need to call protection around your-self. This is because the outer self is the only *self* that could ever believe that YOU are not already Divinely, infinitely protected. YOU...ARE... in all ways... protected. YOU...ARE... in all ways in action as the Divine perfection of the universe.

Even as you seek, YOU ARE... in action as the Divine perfection. For, indeed, what would the purpose of seeking be? Your heart asks this question and all-ready knows. The purpose of seeking is to remember the truth of your Divine empowerment... and you will seek until you have found.

The gift is that this extra-ordinary world of pulsating vibrations, heartbeats and harmonies, will hold you firmly until YOU declare”

“Aha! I have done it. I remember. I AM. I AM home. I now stand in my presence freeing others so that they may BE in their presence.”

BEloved Ones! Your world... now... seeks to support your Divine harmony, AND this Divine harmony is seeking a new balance. Pay attention to the harmonies you hear. Notice when you pull up to a stoplight and hear, “*Boom, boom, boom!*” How do you feel? What do you feel? Ask, “*What in my life is seeking balance now?*” Or! Perhaps when you pull up to the next stoplight you choose to hear the harmony of the Universe and sing along with it. *What in your life is ready now?*

BEloved Ones. How your physical body, your heart, your spirit, your mind, and the full integrated presence of ALL that YOU...ARE... responds to the universal harmonies that have unveiled themselves IS the great gift calling to say, **“I AM... home... here, NOW. I AM Divinely guided. ALL is truly in Divine order.”**

Walking in Oneness

BEloved, BEloved Ones! We beseech thee to understand one thing.

As your world is culminating through the energy of Allness, Alllllllll-ness. ALLness without limitation, meaning that ALL will show IT-self. ALL will be present without limitation and without judgment. As YOU have been expanding, expanding, expanding, expanding into ALLness very, very beautifully, YOU ARE... simultaneously reintegrating your-selves AS ONENESS.

ALLness and Oneness are not the same. In the Oneness, the ALLness discovers balance. In the Oneness, the ALLness is revered as the expression of the Divine that offers the gift of reunification.

To walk in ONENESS is the smile of recognition that ALL IS... well.

To BE in Oneness
with your heart, with your Divine mind, with the energy of your Infinite Mastery Presence, is to jump up and down! To dance often and say: *“Whoohoo. The next step has come!”* You have bodies and hearts to experience this!

The celebration of your experience is the gift of Divine clarity.

As YOU fully celebrate the gift of your experience, Divine clarity will celebrate. Divine clarity is where YOU re-cognize that YOU...ARE... indeed, whole. YOU...ARE... indeed, ready. YOU...ARE... indeed, HERE to move forward...NOW.

Ask of thyself, “What if? Should I? How can?” limits your experience. Lift up your heart and KNOW, “I AM!” This opens YOU to ALL experience. KNOWING that Each IS as YOU ARE and I AM.

As you express this in the expanding journey of Divine conscious reunion, the ONEness energy IS YOU, has all-ways been YOU, and will all-ways BE.

Beloved Infinite Beings of this precious journey! Your world... now... is in a phase-shift experience. To phase shift is to have the same thing move from one way of expression to another, like water to ice. That is a phase shift. YOU...ARE... in this delight-full phasing of shifting. Experience your-self beyond space and time. Smile as YOU recognize the lack of coincidence and absolute knowing of Divine guidance. And you can substitute one for the another.

Coincidence *is not*. Divine guidance **is**. You may say, it is a coincidence, however, with the recognition of Divine guidance, coincidence becomes more meaningful as the expanding of availability to ALL your cellular openings.

Fear Offers the Gift of Freedom

BEloved Ones! There are two energies, on your planet... now... seeking to interfere with your freedom. Number one, fear. You know this. Fear interferes with your freedom.

There is no fear in freedom. To BE truly free, re-cognize that within you, any fear is saying, “We encourage you to be free! BE free!”

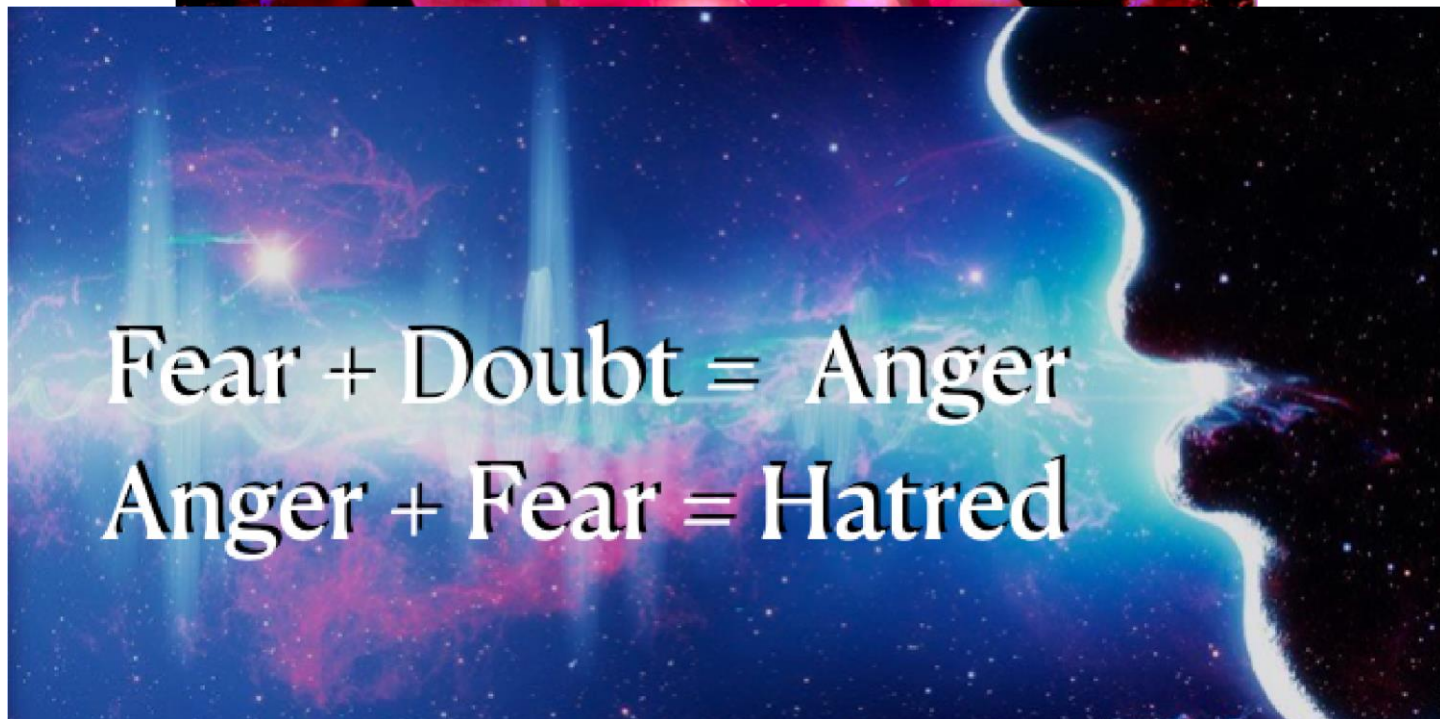

When you feel fear, it is a good time to say, “I AM free!” Walk through this fear in any way that makes you comfortable.

The best way to walk through your fear is to dive deep into it. To feel it, understand, and look at it ALL. Then, allow your-self the gift of Divine recognition that fear is an illusion created by an energy that is afraid of it-self.

Many call out and say, *“I am afraid of my own power. I am afraid to fully come forward as my truth. What if I do? What will my friends think? What will my family think? Perhaps they will think I am crazy.”* Okay! Let them expand, too.

IT IS... a gift when you allow your own freedom to BE the precious gift of your heart. The precious gift of your presence. The precious gift of your BEing.

In a world where fear is a pervasive energy seeking to interrupt you, it feeds upon the second energy, which is very simple. Doubt. When fear exists, and doubt is added... anger breeds. Fear, plus doubt, breeding anger, calls to this world the potentiality where anger plus fear will equal hatred.

Whenever these components are noticed, to unravel judgment invites you to first unravel your fear and doubt. BEloved Angels! The only doubt that exists is as you doubt the truth of your own mastery, of your own Divine Infinite Mastery presence.

YOU...ARE.

This cannot be taken from you unless you give it away through fear and doubt.

An incredibly power-full combination born in a world of density to offer you rich experience.

Stepping off the Fear/Doubt Train

You have had a great train ride of fear and doubt. A seven-ticket ride! When you take the train ride of fear and doubt, there is only one place to go. You can hold on and ride and ride and ride until you make yourself sick... literally... or, YOU can say, "I want off of this ride!" and step off the instant you decide.

I understand and command the energy that has all-ways been working through me as a servant of the Most High, re-cognizing that every-thing I do, every-thing I say, every-thing I AM... is a conduit of Love, Light, and of Highest Wisdom. YOU must believe this of your-self before you can command it.

How can you command from doubt?

“I kind of sort of wish I could.” This is a good start, “I kind of wish I could.” Good! Then move to, “I wish I could.” Then move to, “I could.” Then move to, “I Am.”

Celebrate each step. Celebrate each moment of conscious awareness. To offer a question and wake to the recognition that YOU...ARE... ready to move beyond, is and of it-self an extra-ordinary gift. The more you celebrate, the more you honor, the more you call forward, the more YOU understand within your own beautiful heart that: YOU...ARE... and have all-ways been, then ALL fear cannot be, ALL doubt erases, and anger and hatred have no room to grow.

Carry within your heart the gift of your Divine Infinite Mastery Presence. Carry the gift of your Divine light. Re-cognize that ONENESS is not any-thing that can be given to you. IT IS... simply the memory of YOU.

Take a deep Avesa breath. Physical bodies are in the habit of holding breath as YOU ARE... in the truth of your-self. Breathe Avesa often. Notice when you stop breathing. When you stop breathing, it is the declaration of, “Can I take this in? Can I BE?” IT IS... so! Yes! IT IS! And YOU...KNOW this.

We will take your questions. Yes?

Question: I would like you to address the kundalini energy that is now moving across the world, the serpent, that has moved up into the Himalayas -- I mean from the Himalayas up into the Andes actually, and we're at the beginning of this 13,000-year cycle. And what does that mean for us now?

Many

things.

Question (continued): What does that look like for us now on the planet?

This is a powerful question that is important to understand. For many, many years, the crest, the power center of this energy, which carries spiritual tenacity, has been in the Himalayas. Therefore, many have referred to India as the mother of All Spirituality in this world.

However, as this energy has already moved and has now transcended, what you see in India is a new rise in capitalism and commercialism and a lack of understanding that though the energy has moved, the spirit does not need to move with it. This is important to understand.

What you will see is a great reconfiguration and rise of four new powers. These four new Superpowers will be jockeying for position, looking for new ways to express. Each believing that they are deserving of the right of, what is experienced in your world, as supremacy. This is only born from the energy of fear.

To experience form in one way for a long time, and to suddenly be free to be another way, brings the great risk of manipulation if the heart has not been anchored. India, Tibet, Nepal, Bhutan, all the areas around there... Bangladesh... many -- many -- Sri Lanka, are all being called to remember their heart...now.

If they forget their heart, they will have to meet great new challenges that they are unprepared to deal with at this time. This is because it is the heart that is being asked to be remembered **because the energy has moved.**

Simultaneously, as this energy has moved to the Andes, this energy is spreading. It is like a beautiful lotus flower, indeed. There are 16 petals of energy birthing from the Andes. These 16 flowers, the eight of the eight, the heart of the heart, this blossoming and anchoring, is asking for and inviting the ancient wisdom that has been carried on for many generations, to come forward in connection with universal recognition without hiding.

Many! Many hide what they claim to be secret out of fear of manipulation. In your world... now...IT IS... the heart as the integrity of the revelation, that will, indeed, inspire the greatest movement ever.

And so, there is great risk where this energy has moved. IT IS... still stabilizing. The areas of the East that we have mentioned that art predominantly centered around India, are stabilizing also. They are finding their new way, as this area is finding its new way.

Many Light Workers will be re-a-lion-ing themselves. Visiting, moving, shifting. Great masses of people coming together showering and holding presence. When the world is in the process of the shift of the ages, as YOU ARE... there is no need to wait for what many wait for.

**Act now. Hold your presence... now. Follow your heart!
Go where YOU ARE called. KNOW that the Universe abundantly supports
YOU when your heart is the primary reason to go.**

As you pay attention to the numbers in your world that are appearing to you, the energy of the Blue Starborn has already encompassed your planet again. After millennia, this beloved energy of the crystalline worlds has already come forward, and many, many will rise.

In your world now, those who carry darker skin carry the pigmentation of the Blue Starborn. The Blue Starborn are all-ready coming forward to help America come forward again. IT IS... a great gift to see this energy of the Blue Starborn move forward. There is great power and synergy in universal reconnection.

Pay attention to what you KNOW. Pay attention to your heart. ALL of the energies of your Galactic Brethren have been patiently holding space for YOU without interfering. YOU...ARE... in a non-interference zone. You cannot be interfered with.

However, YOU can
command communication if you release ALL doubt! You cannot have communication if you say, "Prove to me!" That exactly is why you will not. You cannot have communication if you stand with a gun in your hand and say, "Show yourself to me."

BEloved Ones, where is your communication? Where are your commanding skills? Are you seeking or are you knowing? Each will have their Divine experience. And so it is.

Question: When it comes to healing our own self and being an energy healer, how does that work? I mean, we can create great healing for others, but is there a way to uplift so we provide that for our own soul and physical being?

Absolutely! This can be as simple as commanding the re-cognition that I AM whole; I AM complete; I AM a healer; and I AM healed. As YOU hold the presence of a conduit of Divine energy flowing through you, hold out your hands, open your heart, prepare your-self with the great gift of gratitude, and allow this to flow through you. IT IS... truly that simple.

To achieve that level of understanding and deep connection is what can take many years. How you achieve that is each soul's guidance. It can be done in a moment; it can be done with others; it can be done any way that your heart calls you to do.

Hold this presence for your-self! Release fear. Release doubt. Listen. Every-thing we have offered you today will answer this question again and again.

BEloved Ones! We celebrate YOUY as we celebrate this moment of this Divine and glorious experience of physical life. IT IS... with great love that we say with our smile of love and appreciation, Many blessings.
